10 February 2025

OPERATION PATALA: SETTLE YOUR DEBT & START FRESH!

Metsimaholo Local Municipality is pleased to introduce Operation Patala, a special incentive program designed to help residents reduce their outstanding municipal debt. Approved for the 2024-2025 financial year, this initiative offers a 50% discount on arrears for all customers with outstanding balances as of June 30, 2024.

Take advantage of this limited-time opportunity to clear your debt and start anew! Eligible customers must pay a once-off 50% of the balance and the other 50% will be given as discount. The customer can settle the full account with the discount or make the payment arrangement for the debt accumulated from July 2024 to date. The arrangement should not exceed 12 months. Failure to honour the arrangement will result in the forfeiture of the discount.

For example, if your overdue balance was R100,000 as of June 30, 2024, and your total outstanding balance is now R150,000, you will receive a R50,000 discount. This means you will need to pay only R100,000 to settle your account completely.

This initiative aims to assist residents in managing their financial obligations while improving municipal service delivery. Don't miss this chance to get back on track, act now to benefit from this limited-time offer!

For more details and to arrange your payment, contact the Municipality's Finance Department.
