REFUSE REMOVAL DISRUPTIONS IN CHRIS HANI AND SASOLBURG

The Municipality regrets to inform the residents of Chris Hani and Sasolburg that the refuse removal schedule was not completed due to unforeseen mechanical failures with two of our compactor trucks because of heavy rain conditions that put much strain on the trucks.

We understand the inconvenience this might have caused, and our team is working diligently to get the trucks operational.

We deeply apologize for any disruption this might have caused. We will provide further updates to keep the community informed.
