SEWER SPILLAGE IN SOMMERSPOST, ZAMDELA

Metsimaholo Local Municipality regrets to inform the community of a sewer spillage incident in the Sommerspost area, Zamdela, which has affected numerous households. We acknowledge the distress this has caused and assure residents that we are taking urgent steps to resolve the issue.

The spillage is a result of theft and vandalism at the pump station situated in the area, with incidents occurring on at least two separate occasions. This has led to severe backflows, impacting the entire community.

Our technical department has already initiated the procurement process to address the issue. We are strictly adhering to legislated requirements and guidelines to ensure a swift and effective resolution. Once the procurement process is finalized, a service provider will be deployed to rectify the sewer spillage and restore normalcy.

We sincerely apologize for the inconvenience and disruption this has caused. Your patience and understanding during this time are highly appreciated.

Metsimaholo Local Municipality remains committed to resolving this matter as swiftly as possible and will provide updates as the process progresses.
