Planned Electricity Outage in Themba Kubeka on 23 April 2025

Metsimaholo Local Municipality would like to inform residents and businesses in Themba Kubeka of a planned electricity outage scheduled for **Wednesday, 23 April 2025**, from **08h00 to 16h00**. This essential interruption is necessary to carry out critical maintenance work on the electricity network to improve reliability and ensure the safety of our infrastructure.

The scope of the work includes the lowering of conduit pipes on wooden poles F4 TK1 and F2 TK1 to relieve stress on the termination, tensioning of the short span between poles F4 TK1 and F4 TK2, sealing of cable entry points at the switching station to prevent water ingress, and the installation of gratings over the switching station cable trench. These interventions are vital to correct existing network snags and enhance the overall stability of the supply.

We sincerely apologise for any inconvenience caused and kindly request the cooperation and understanding of all affected parties during this time. Residents are encouraged to treat all electrical installations as live for the duration of the outage. For your safety and that of your appliances, please switch off all sensitive electrical equipment in advance.

We thank you for your patience as we work to provide you with a safer and more efficient electricity supply.
