Planned Electricity Outages for Emergency Maintenance – July 2025

Metsimaholo Local Municipality informs residents of Sasolburg and Vaalpark of planned electricity outages due to emergency maintenance and urgent repairs on key substations. This critical intervention is part of ongoing efforts to stabilise the electrical network and improve the overall reliability and safety of the electricity supply in the affected areas.

The scheduled maintenance will be carried out as follows:

**Sasolburg Main Substation on 22 July 2025,
Voster Substation on 23 July 2025,
Vaalpark Substation on 24 July 2025,
and Sasolburg Eskom Substation on 25 July 2025.**

Electricity outages are anticipated during these dates and may last up to four hours. Specific time slots will be communicated closer to the affected days through the municipality's official platforms.

Residents are strongly advised to treat all electrical appliances and outlets as always live and to take necessary safety precautions to prevent accidents or damage to property.

We sincerely apologize for any inconvenience this may cause and appreciate the community's patience and understanding as we work diligently to upgrade and strengthen our electricity infrastructure for more stable service delivery.
