### **URGENT ELECTRICITY OUTAGE NOTICE – VAALPARK RESIDENTS**

Metsimaholo Local Municipality wants to notify all Vaalpark residents about an ongoing electricity outage affecting certain areas. This outage has been linked to a fault at the Roodia substation, which was triggered by an earth fault, leading to a cable fault. Consequently, half of Vaalpark is without power, impacting numerous homes and businesses.

Our technical team is already present at the site and working hard to identify the primary issue and carry out the necessary repairs to restore power as quickly as possible. We understand the inconvenience this may cause and want to assure residents that we are making every effort to address the problem promptly and effectively.

We appreciate your patience and cooperation during this period. Updates on the repair progress will be shared through the municipality's Facebook page.

Thank you for your continued support and understanding.
